

ECO SCHOOLS

Kindergarden of Kounavi, Greece

This is our school, “The kindergarden of Kounavi”

It is located in GREECE (ΕΛΛΑΔΑ), on the island of Crete (ΚΡΗΤΗ), in a small village called Kounavi

We are in the network of Eco schools two years. This year we were awarded the Green Flag and we are proud of this.

Here are some of the activities we have done.

PLANTING. We plant different legumes and watch their growth

We take notes and compare the different plant growth

Seeking to create active citizens, we collaborate with the parents of the children and transform the tires into jargon to plant flowers

And establish a tree planting day in our school with parents and children

The flower seeds we planted andthe result

The children present information they brought from their houses about the trees we planted

LET'S MAKE COMPOST. A person in charge of the Cretan Waste Management Center, who we invited to visit our school, explains us how we will do composting

Do you want to learn how?
First put together the pieces of the
compost container. Then cut the
materials, fruits, vegetables into small
pieces (remove oranges and lemons)

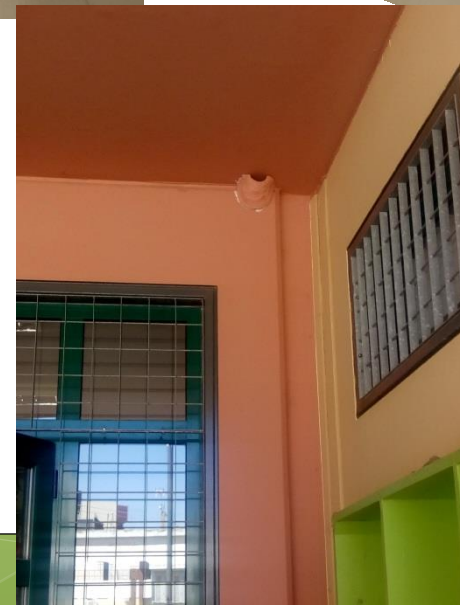

put the materials in the container

**Mix them and pour some water.
Now we have to wait the food of
the plant to be prepared**

WELCOMING SWALLOWS. We make nest of clay for the shallows following instructions from the Greek Ornithological Society

**And use bottles of water to make
feeders with seeds for hungry birds
that will come**

MAKING RECYCLED PAPER...

We cut the newspaper in small pieces

We put the cut paper in
mixer

and pour water into it

Mix and spread the

**This is the ecologist code we made,
which is related to the protection of
our plants**
